

Please not that K-LOVE is a huge benefit to me and my family, as well as my community. It provides a positive, uplifting music alternative to the progressive and sometimes offensive music stations on the FM dial. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming it would create a huge listening void in my community. Myself and others I know will stop listening to FM radio completely and just listen to CD's. There is no other Christian radion station that compares. It is within the public interest to continue to include K-LOVE in your broadcasting menu.
